

# CairoSwap Protocol

DevPioneers Labs

<https://cairoswap.com>

# Introduction.

CairoSwap, a decentralized exchange (DEX) aggregator, empowers our traders with exceptional token prices. We achieve this by instantly analyzing rates across thousands of exchanges and introducing the added flexibility of limit orders!

# Our Features.

## Aggregator and Limit Order

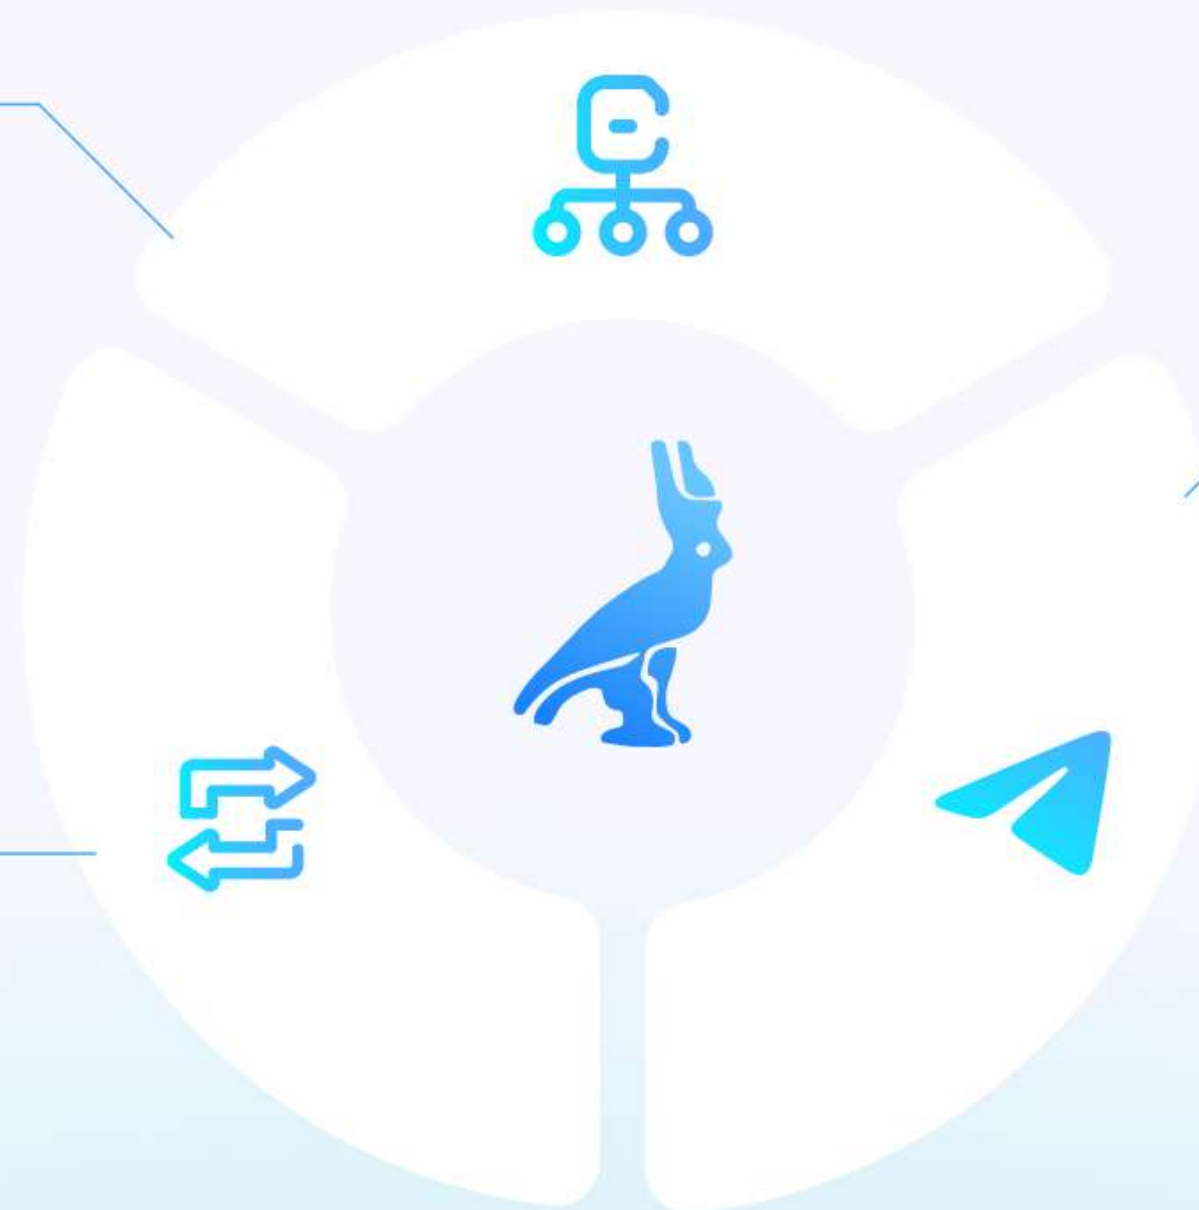

- Liquidity aggregation from multiple DEXes to ensure the best swap rates.
- Limit-Order Trading Empowered by our Aggregator for the Best Rates

## Decentralized exchange (DEX)

A next-generation AMM that offers capital efficiency to liquidity providers

## Telegram Sniping and Trading Bot

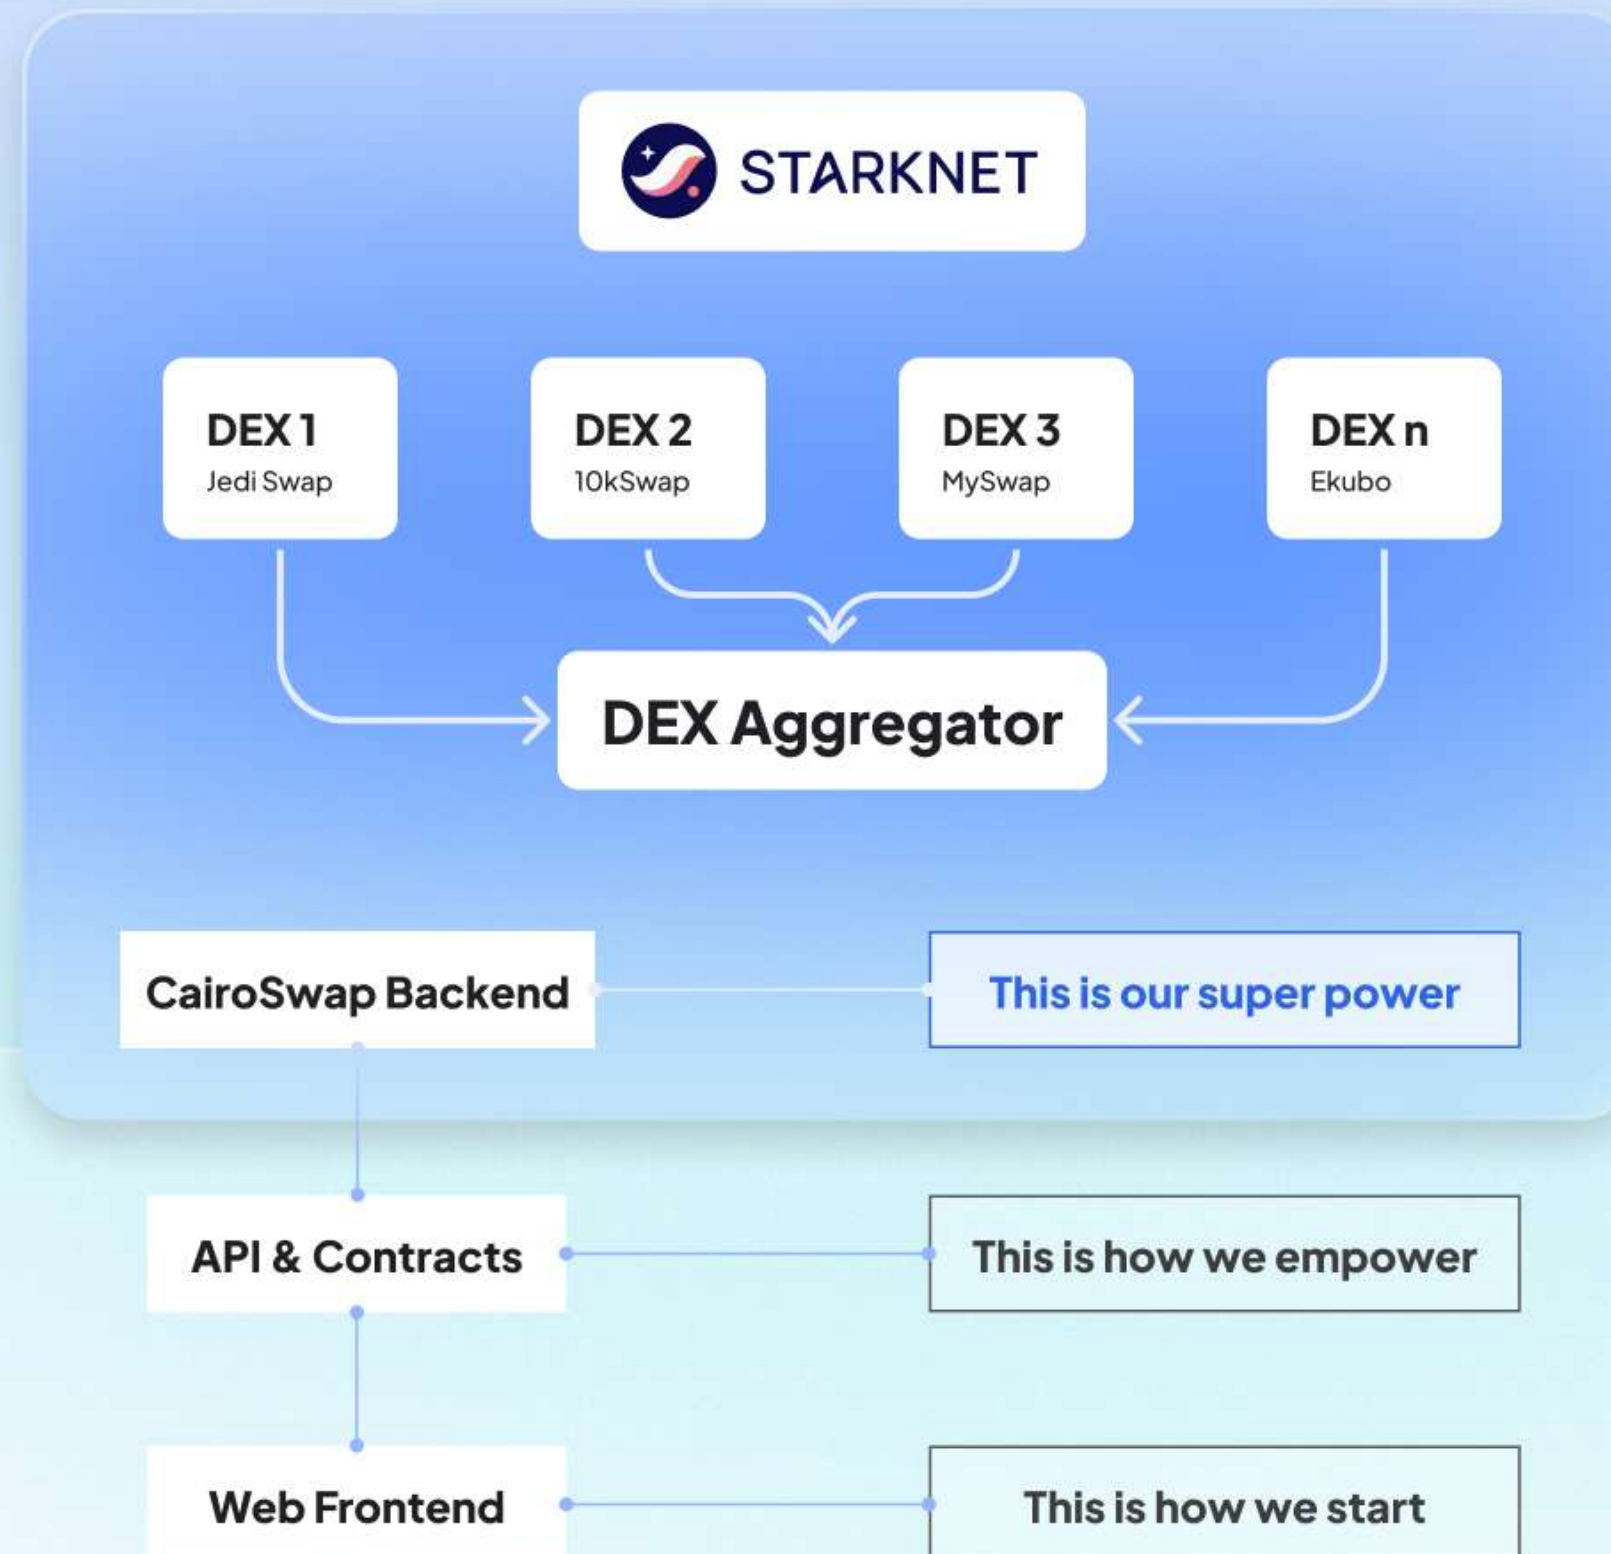

Experience seamless trading automation with our advanced CairoSwap-Bot. It analyzes market trends, executes trades, and maximizes profits for you. Customizable and real-time monitoring included.

# Aggregation Protocol.

## Narrative

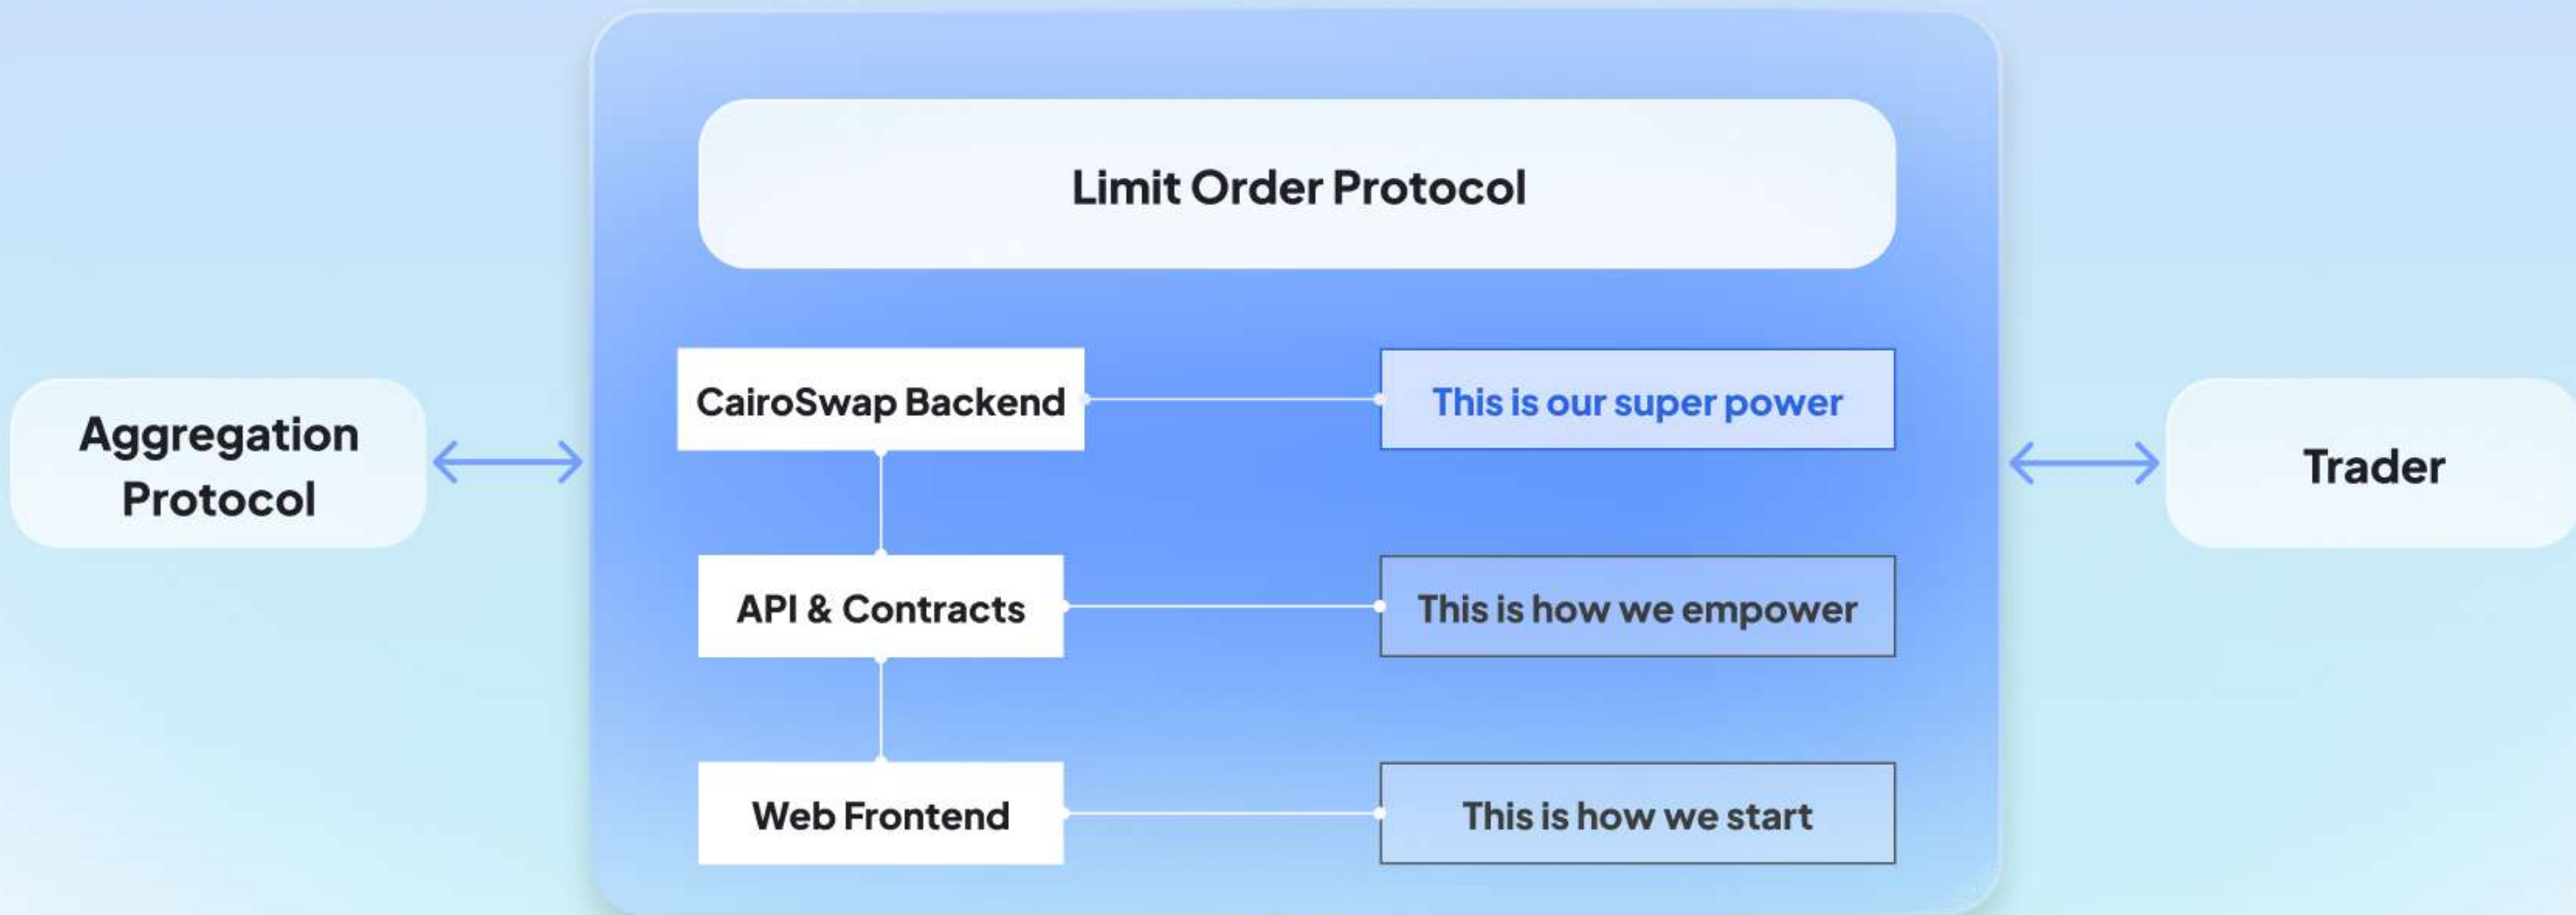

Tune your trades seamlessly across multiple decentralized exchanges on STARKNET.

1. The protocol sources liquidity from various exchanges and is capable of splitting a single trade transaction across multiple DEXes to ensure the best rates.

2. Make that liquidity mesh accessible via different layers

# Limit Order Protocol.

## Limit-Order Trading Empowered by our Aggregator for the Best Rates

Discover the efficiency of limit-order trading on our platform, enhanced by the robust capabilities of our aggregator. Each trade is meticulously analyzed and executed to secure the best rates for our users, leveraging the aggregated data to ensure optimal pricing.

# Decentralized Exchange [DEX].

1. Anyone can provide liquidity to CairoSwap AMM by depositing tokens e.g. Traders, Token Teams.

2. Anyone can access this liquidity from CairoSwap AMM for their own use case e.g. dApps, Aggregators.

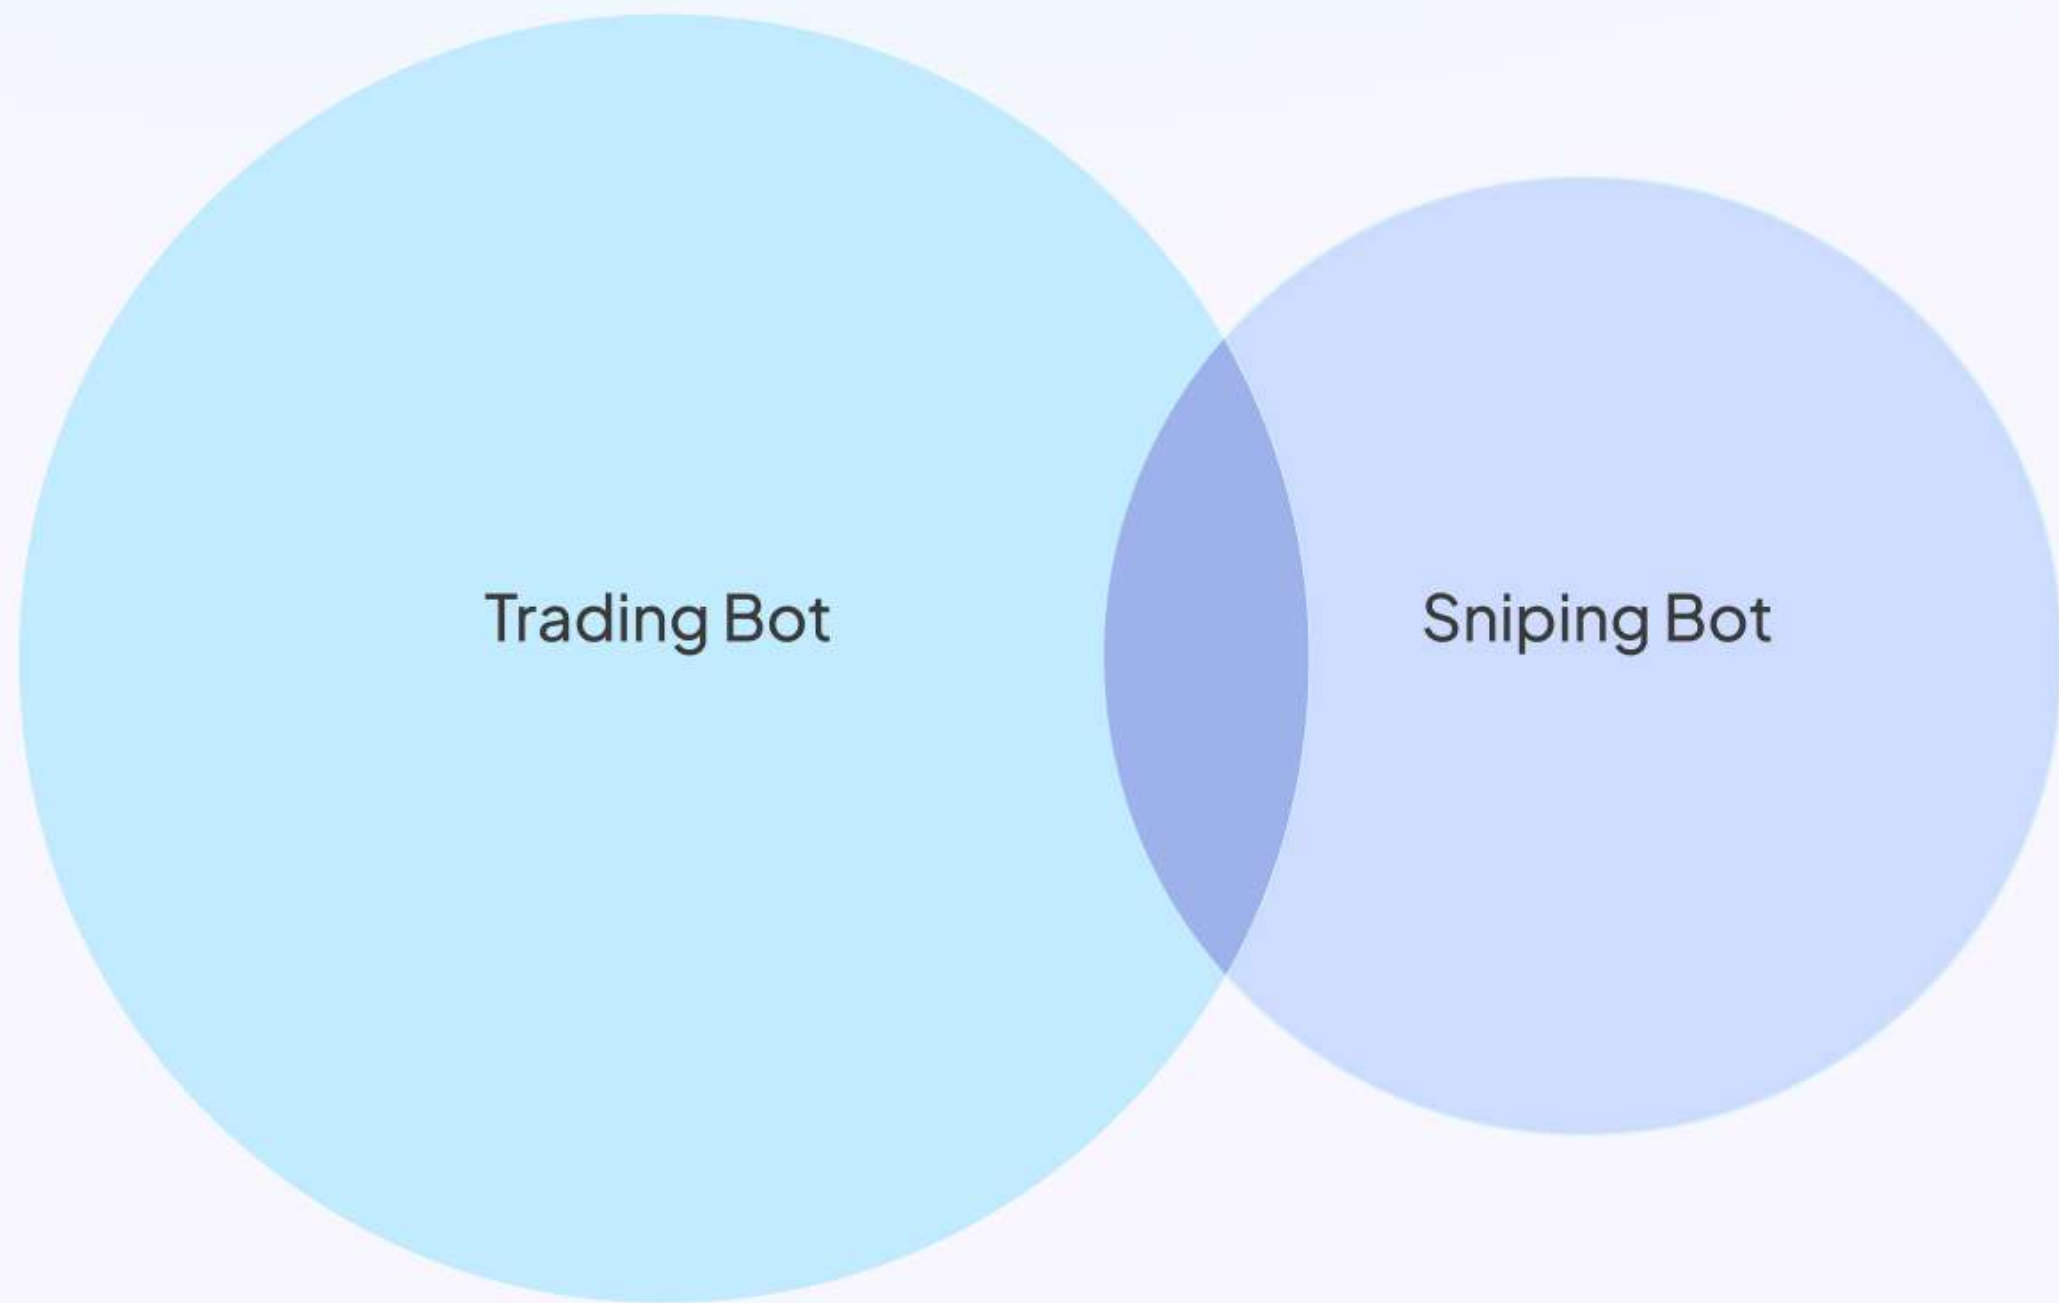

3. Thousands of users and multiple decentralized applications are already providing and using our liquidity

# Telegram Sniping and Trading Bot.

1. Sniping Bot: A one-time setup to start your DeFi trading journey on Starknet
2. Trading Bot: CairoSwap Trading Bot allows investor and token groups to monitor buys, sells, and price changes for up to two tokens for free. It offers impeccable speed, unmatched versatility, and excellent accessibility, making it the perfect tool for crypto groups with high ambitions.

# Roadmap.

# Thank for watching!
